

DIY Milk Charms!

by JoEllen Poon

1. Print out this template onto cardstock.
2. Cut out the teardrops  and circles .
3. Laminate for durability (optional, but recommend).
4. Place the circle cutout over the circle outline inside of the teardrop. Use an eyelet setter to attach the circle at the "x."
5. Use a hole-puncher to punch out a hole  at the top of the teardrop, and loop a rubber band through it. All done!
